this writer responded to a medical emergency on "B" block called at 1057. Upon arrival pt was on his knees, face down on his bed unresponsive. When he would not respond to verbal stimuli, I rolled the pt over to the front side & when I saw the lacerations on the anticebital areas on both of his arms, I immediately pulled his body to the ground with the assistance of Lt. Bahj. I applied pressure to both arms & he began CPR, advised additional staff to call 911. No breathing observed, no noteable pulse. CPR continued for a few minutes and

then we moved the pt. to the day room for more
room for medical staff. Alternated CPR until
EMS arrived approx 1120 & took over compressions.
